'A Day In The Life...' An exhibition by children & young people using photography, pictures & words to explore the issues of domestic abuse and substance use. This exhibition represents the culmination of an action research project which was run over the summer with Children & Young People from Dundee, Angus and Perth & Kinross. The aim of this project was to engage with and enable children and young people to have a voice and represent their views in relation to domestic abuse and substance use. As part of a decoding exercise, each young person was asked: What do these words mean to you? What are the first things that come to mind?

Violence, Drugs, Alcohol Using photography and art the young people photographed images from their surroundings that they felt represented the words/texts they had used. They then combined the images with the words/text. We would like to take this opportunity to thank all those who gave up their time and participated in this exciting, unique project. In particular, we would like to thank: all the young people who took part, Perthshire Women's Aid, Dundee Women's Aid, Tayside Council on Alcohol - Angus Connect Project, Alex Papanikolaou for his invaluable support with compiling the text and images. The project is part of the Tayside Domestic Abuse and Substance Misuse Multiple & Complex Needs Initiative which is funded by the Scottish Government. The project is a Tayside partnership covering the 3 local authority areas with multi-disciplinary membership from both the statutory and non-statutory sectors. The project was established in 2006 to encourage a co-ordinated multi-agency response across Tayside for women with dual experiences of domestic abuse and their own substance misuse. Engaging with Children & Young People who may have specific needs as a result of their experiences of both domestic abuse and the impact of parental substance misuse was recognised as an important element of the project. The action research summer project arose from this initial thinking. The exhibition is available as a touring exhibition/training resource. To arrange to borrow the exhibition please contact Dundee Domestic Abuse Forum on 01382 434569 or ddaf@dundeeccity.gov.uk

Evaluation Feedback comments from the young people: The young people were asked to comment on the day - how they felt it had gone, what they liked, didn't like. How I felt: I had fun, it was great I had the time of my life Emotions: happy, excited, hungry I think today was really good and I would say I was excellent at being patient and taking pictures on the cameras. I had a really GREAT day today My favourite things about today were: Seeing my collage being made and using the cameras.
